SUMMARY

Motivated and enthusiastic engineering student with skills in Java, HTML, CSS, and JavaScript. Seeking opportunities to apply technical knowledge through internships and real-world projects. Passionate about web development with a willingness to learn and contribute effectively to organizational goals.

EDUCATION

Bachelor of Engineering (BE)- IT
MET's Institute of Engineering, Nashik
Expected Graduation: 2027
Avg SGPA: 9.15

TECHNICAL SKILLS

Programming Languages: Java, JavaScript
Frontend: React.js, HTML, CSS, JavaScript
Backend : Node.js, Express.js
Database: MongoDB basics
Tools: GitHub, VS Code, Postman

PROJECTS

1. AgriMarket : A Farmer to Consumer Marketplace

<https://github.com/Monali-2105/internship-Project.git>

- Developed a full-stack web application that connects farmers directly with consumers to enable fair pricing and transparent agricultural product sales.
- Built using React.js, Redux Toolkit, Node.js, Express.js, MongoDB, and Cloudinary. Implemented features such as user authentication (JWT), product management, product ratings, cart and order system, responsive UI, admin dashboard, and image upload functionality.
- The platform improves accessibility for farmers and provides consumers with a seamless online shopping experience.

2. AI Resume Screening System (MERN + Cohere AI)

- Built a full-stack AI-powered resume screening platform using React.js, Node.js, Express.js, and MongoDB.
- Integrated Cohere AI to evaluate resumes against job descriptions, generate match scores, identify missing skills, and provide personalized improvement suggestions.
- Implemented PDF upload, REST APIs, and secure user authentication.
- Developed a responsive dashboard to view resume analysis history and AI-generated feedback.

INTERNSHIP EXPERIENCE

Web Development Intern

Softcrowd Technologies, Nashik

January 2, 2026 – February 17, 2026

- Developed interactive user interfaces using **React.js**.
- Built reusable components to improve code maintainability.
- Implemented routing using React Router for SPA navigation.
- Integrated frontend with backend APIs for dynamic data rendering.
